Profile

I am passionate about data analysis and management, with strong skills in databases, Big Data, and information systems development. I'm eager to apply my expertise in a dynamic professional environment where I can contribute to optimizing processes and driving data-informed decisions.

Professional Experience

Founder

01/2023 – 12/2023 | Oran, Algeria

ALGDEV

As the founder of ALGDEV, a platform connecting software developers with businesses, I led the product development from conception to deployment, working closely with my partner and mentors. Despite facing many challenges, this experience allowed me to develop key skills in project management, team leadership, fundraising, and market strategy, while significantly enhancing my ability to address and overcome entrepreneurial obstacles.

Intern

03/2023 | Oran, Algeria

Berci Consulting

During my internship, I was responsible for publishing applications, managing website hosting, overseeing software downloads, and effectively resolving issues. This role allowed me to develop a comprehensive expertise in these critical areas, as well as enhance my problem-solving skills, significantly advancing my professional capabilities.

Sales Associate

05/2022 – 09/2022 | Oran, Algeria

Retail Store

Managed sales operations, organized product displays, and ensured optimal merchandising of products. Enhanced customer communication skills by delivering personalized service and addressing client needs effectively. Oversaw inventory management and addressed operational issues, contributing to smooth store operations.

Production Worker

06/2019 – 09/2019 | Oran, Algeria

Slate Factory

Executed various production and maintenance tasks, ensuring high standards of efficiency and quality. Developed a strong sense of responsibility, discipline, and attention to detail, contributing to reliable and consistent factory operations.

Training

Entrepreneurship Training

2022 – 2023 | Oran, Algeria

Incubator Oran 1

Completed an intensive entrepreneurship training program covering idea generation, design thinking, market analysis, and business plan writing. Gained skills in techno-economic studies, artificial intelligence, business model preparation, and patent filing. Developed expertise in market strategy and assessing the economic feasibility of projects.

Education

Master's degree in information Systems and Data

09/2023 – present | Oran, Algeria

Université des Sciences et de la Technologie d'Oran

Mohamed-Boudiaf USTOMB [✉](#)
